Ohio Marijuana Card Helps Patients Obtain Their Medical Marijuana Card

Getting your Ohio medical marijuana card has never been easier!

Cleveland, OH — Now that Ohio’s medical marijuana program is up and running, and dispensaries are opening soon, many prospective patients have been wondering how and where to obtain their marijuana card, and where to find both doctors and dispensaries.

Ohio Marijuana Card has a mission of making this process not only easy for patients, but also affordable. The compassionate staff connects patients to one of the organization’s eight state-certified medical marijuana doctors, with four locations throughout Northeast Ohio alone. As Ohio Marijuana Card partners with more certified doctors, future offices will be opening throughout the state.

The staff will walk guests through the entire process, from where to go, how to obtain medical records and where to locate the nearest dispensary. They even offer follow-up phone appointments and file all the required paperwork necessary to receive a medical marijuana card. This leaves patients time to focus on what’s important in their lives without all the hassle.

Ohio Marijuana Card also offers easy one-time payments and monthly installment plans depending on the patient’s budget, as well as discounts for veterans and referrals. Their goal is to make sure everyone who is qualified for a medical marijuana card is able to obtain one without unwanted confusion.

“For too long, the health benefits of this plant have gone ignored,” Ohio Marijuana Card President Connor Shore stated. “But now that marijuana has found a home in Ohio, our group plans to work hard to bring relief to thousands of suffering Ohioans.”

Call today at 1-866-457-5559 to set up an appointment with one of their doctors, and find relief, healing and peace of mind.
